Weight Capacity	
Reziprocal (Max Mass)	100kg

Product Data

Product Code:

700100100 (Rigid Gecko)

700100200 (Reziprocal Gecko)

The Gecko Walker has been designed to provide a unique level of assistance at all time when using the frame.

The Reziprocal Walker will easily move along with the user without any lifting required, making it ideal for users with limited strength and mobility.

For a higher level of mobility it is the best to lift up the Rigid Walker before every step and to utilize the support of the walker while taking the next step.

The Gecko includes non-slip/non-marking ferrules on both front and rear legs to provide additional stability and support.

Featuring the one hand 'easy-to-fold' mechanism the Gecko walker is the ideal space-saving mobility aid.

PRODUCT FEATURES
